

# Fax API Documentation

---

## Endpoints

---

**Method:** POST

**URL:**

[http://penta-test.com/robo\\_cms/public/impexp\\_module/faxapi/signup](http://penta-test.com/robo_cms/public/impexp_module/faxapi/signup)

**Description:**

This endpoint is used to register a new user.

If user successfully registered a response containing his data will be returned and a token to be used in each request will be also returned but in a header called “token”.

**Request sample:**

```
{
  "email": "ashrafhesham@test.com",
  "password": "123456",
  "username": "ash",
  "name": "Ashraf"
}
```

**Request header:**

content-type : application/json

**Response header sample:**

```
token → 3g1lp7njt0110zqb1aa81q117w86kb01
```

**Response sample:**

```
{
  "status": 1,
  "message": "success",
  "content": {
    "name": "Ashraf",
    "username": "ash",
    "email": "ashrafhesham@test.com"
  }
}
```

---

**Method:** POST

**URL:**

[http://penta-test.com/robo\\_cms/public/impexp\\_module/faxapi/login](http://penta-test.com/robo_cms/public/impexp_module/faxapi/login)

**Description:**

This endpoint is used to login a user if the token that was used in request is lost.

If user successfully logged in a response containing his data will be returned and a (new) token to be used in each request will be also returned but in a header called “token”.

**Request sample:**

```
{
  "email": "ashrafhesham@test.com",
  "password": "123456"
}
```

**Request header:**

content-type : application/json

**Response header sample:**

```
token → 1hb04v83fc4rm0111ye4m413k1ps1054
```

**Response sample:**

```
{
  "status": 1,
  "message": "success",
  "content": {
    "user_data": {
      "ID": "123",
      "Title": "Ashraf",
      "User": "ash",
      "Mail": "ashrafhesham@test.com"
    }
  }
}
```

---

**Method:** GET

**Request header:**

token : {user access token}

**URL:**

[http://penta-test.com/robo\\_cms/public/impexp\\_module/faxapi/getFaxes](http://penta-test.com/robo_cms/public/impexp_module/faxapi/getFaxes)

**Response sample:**

```
{
  "status": 1,
  "message": "success",
  "content": {
    "faxes": [
      {
        "id": "6",
